

A Message for Longport Mayor Nick Russo, Attention Longport Residents – Power Failure Caused Temporary Water Service Disruption, August 11th

At approximately 6:15 this morning, August 11, 2022, a power failure caused a disruption in water service. Water service resumed approximately 15 minutes later at 6:30 am. If you are experiencing water issues or discolored water, please let the water run for 10 to 15 minutes to flush the system. This should address any concerns with discolored water. Thank you for your understanding.
